

**MINUTES OF MEETING
CITY COUNCIL OF PEACHTREE CITY
May 21, 1992**

The City Council of Peachtree City met in regular session on Thursday night, May 21, 1992 at 7 PM in the City Hall Council Chambers.

Mayor Lenox called the meeting to order and led those in attendance in the pledge of allegiance. Present were Mayor Robert L. Lenox, Councilmen Edward Bradford, Annie McMenamin, and Robert Brooks.

Addition of Agenda Items

There were no items added to the agenda.

Announcements, Awards, Special Recognitions

Mayor Lenox announced that anyone wishing to speak to the issues should go to one of the two microphones provided and state his or her name and address for the record.

The week of May 25 through May 31, 1992 was proclaimed as "Buddy Poppy" week in Peachtree City by Mayor Lenox. Mr. Don Lippe, VFW, was present for the reading of the proclamation.

The "Employee of the Month" award for the month of April was presented to Nancy Faillo, Secretary/Receptionist at City Hall, by Mayor Lenox.

Mr. Mike Midas, President of the Leadership Institute, presented Jane Miller with a recognition of achievement for passing courses to achieve the Continuous Improvement Leader Certification.

Mayor Lenox presented Charles Sibley and Rick Phillips, Building Department, with Certificate of Achievement Awards for receiving their Certified Mechanical Inspectors Certificate.

The current population of Peachtree City is 21,949.

Department Reports

Department reports for the month of April are available for review at City Hall.

Minutes of Meeting

Brooks made a motion to approve the minutes of the May 7, 1992 meeting as presented. Bradford seconded the motion. Motion carried with McMenamin abstaining due to absence from that meeting.

New Agenda Items

5-92-12 Public Hearing - Rezoning of Two Acre Parcel in Kedron Village from Commercial to Residential and consideration of a variance from the Land Development Ordinance for development of property.

Mayor Lenox opened the floor for a public hearing and stated the procedures for the hearing. Copies of the rules for public hearings were on the agenda table for the benefit of the public.

Mr. C.L. Douthard, Peachtree City Development Corporation (PCDC) Agent for The Equitable, owner of the property, came forward to present the request for rezoning to Council. Mr. Douthard stated that the request was for two acres on Kedron Drive that was currently zoned General Commercial, and PCDC would like to have it rezoned to General Residential (GR-10). Mr. Douthard explained that the general residential zoning would be in line with the surrounding area zoning and the property would be included in the development of property already zoned GR-10.

Mr. Jim Williams, Director of Developmental Services, spoke on behalf of the request for rezoning, stating that the Planning Commission had recommended approval, and that it would eliminate a commercial spot in a primarily residential neighborhood. Mr. Williams stated that general residential zoning would fit in with the zoning and land use plan for the surrounding area.

Mayor Lenox asked for anyone wishing to speak against the issue and hearing none, asked if there were any questions.

A resident of Pinegate came forward to question the number of homes that would be built, the price range, and the buffer between the homes and the Pinegate area. Mr. Douthard reported that there would be a fifty foot buffer plus a frontage road making the total buffer about one hundred feet. He said that the price range would be about one hundred twenty-five thousand to one hundred and fifty thousand and that there would be three units to the acre with a total of thirty-five homes. The resident asked if PCDC had considered putting larger homes on bigger lots. Mr. Douthard stated that it had been considered, but that it was not economically feasible.

Hearing no further comments the Mayor closed the public hearing and asked for Council consideration.

McMenamin stated that she felt it would have a positive effect on the community and moved to approve the request for rezoning. Bradford concurred and seconded the motion. Motion carried unanimously.

Mayor Lenox stated that in conjunction with the rezoning a request had been made for a variance to the land development ordinance regarding the driveway set up to service the development.

Mr. C. L. Douthard came forward and explained that the request was for a variance to the definition of driveway, which only permits two lots to open onto a private driveway and they were asking for approval to open fifteen lots onto the driveway. Mr. Douthard explained that the development would have rear entry garages with driveways leading off of a service road that would be shared by two homeowners. The property would be owned and maintained by the homeowners and the covenants would stipulate that each homeowner would have a responsibility to contribute to the upkeep of the road. Mr. Douthard stated that the road would be constructed of asphalt that was fourteen feet wide, which is wide enough for two-way lanes but not wide enough to encourage traffic. Mayor Lenox asked Mr. Douthard if parking could be prohibited. Mr. Douthard answered in the affirmative. Mr. Joe Alfano, Planning Commission member, questioned whether fences could be put up. Mr. Douthard stated that there would not be a problem with fences due to the limited yard area, and that fencing regulations would be included in the covenants.

A resident questioned the possibility of a play area for the children, and voiced concern that the price range of the homes would be lower than the homes in Pinegate. Douthard stated that there were no plans to put a play area in that subdivision, that when putting in recreational facilities, more than one area needs to be able to utilize the facility. Brooks stated that he believed that the price range of the area would be very compatible with Pinegate and that there would be a public recreation area located in Kedron Village available for the use of all residents.

A resident of the Marks subdivision brought up the issue of emergency vehicle access and utility location. Mr. Douthard stated that the main utilities would go around the main road and that emergency vehicles would have access to the main road as well as the service road for the drives. Fire hydrants and street lights would be located on Kedron Drive.

Mayor Lenox stated that he felt the design was innovative and that he supported it. McMenamin agreed and made a motion to approve the variance as presented. Brooks stated that with the variance, he felt it would make a very attractive area and much more pleasing than a convenience store and seconded the motion. Motion carried unanimously.

5-92-13 Public Hearing - Five Year Public Improvement Plan

Mayor Lenox stated that the Five Year Public Improvement Plan would be a public hearing and would be conducted in the same public hearing format, but time limits would not be set since it would not be a pro and con debate. Copies of the Five Year Plan were available for public review.

Jim Basinger, City Manager, reported that the Five Year Public Improvement Plan that Council had before them and was published in the UPDATE was what had been developed earlier in the year at

Retreat. He explained that several changes had been made since Retreat, and he would go over them for the benefit of the public.

Basinger stated that in 1993 Peachtree City had a commitment from The State Department of Transportation to pay 75% of the construction of the Highway 74 Carpath Bridge which would free up \$140,000 of 1993 funds. In 1994 the City's share of the library expansion will increase from 10%, which was projected based on past history, to 25% increasing the funds needed from \$152,000 to \$364,254, which would be a significant change. Paving of dirt roads would be deleted from the Public Improvement Plan, and the City was proposing a policy for residents on each side of the dirt road to pay 1/3 of the cost and the City would pay 1/3 of the cost. Funding would be implemented into the Public Improvement Plan as soon as possible after all parties were in agreement as to their share of the costs. Mr. Basinger stated that also in 1993 the first phase of the Smokerise Recreation Area would be constructed at a cost of \$60,000.

Mr. Basinger reported that the big ticket items that need to be funded in the 1993 Plan are, the Kedron Fire Station at a cost of \$560,000, and the construction of the Smokerise Recreation area at a cost of \$60,000. Total allocation for fiscal year 1993 was \$1,344,601.

Mr. Paul Talbot, 629 Doubletrace, volunteer fire fighter, came forward to ask that Council consider moving the Training facility for the Fire Department up in the Public Improvement Plan from 1996 to 1993, since the money from the Highway 74 Carpath Bridge has been freed up. Mayor Lenox asked that the training center be held for consideration later in the hearing.

Mr. Basinger stated that in 1994 the major project would be the library expansion. Mr. Basinger stated that an application had been made to the State and that the City was optimistic that the funds would be granted. The total cost of the project is \$1,525,000 for a 10,000 square foot expansion. Total allocation for fiscal year 1994 was \$1,613,254.

A resident came forward to ask for Council consideration of putting a carpath along the north parkway near Parkway Estates. She felt it was a very dangerous area having to cross Peachtree Parkway to reach a carpath. Mr. Basinger stated that there were no plans to extend the north carpath, but that it could be looked at. Mayor Lenox asked Staff to look into this.

A resident of the Summit subdivision, came forward to voice objection to the proposed amount of funds to be spent on the Highway 54 landscaping in 1993, 1994 and 1995. Basinger stated that the 54 median will contribute to the beauty of Peachtree City and that landscaping is very expensive, and also stated that the proposed \$200,000 is a budgetary figure and he hoped it could be done for less. McMenamin stated that it would be appreciated for

— Civic groups to contribute to the landscaping fund as a public service project.

A resident of the Clover Reach subdivision questioned why money could not be given to the Animal Shelter instead of spending it on landscaping. Council explained that the Animal Shelter was a County facility, funded by the County and that the residents of Peachtree City contribute to it through tax dollars.

A resident voiced concern over spending money on landscaping on Highway 54 that would have to be replanted such as the landscaping on Highway 74 North.

Several residents came forward to voice their concerns over the proposed landscaping, most hoping for low maintenance plants.

After assuring citizens that these concerns would be looked into, Basinger moved on with proposed 1995 Plan. He reported that Staff anticipates that the Highway 54 carpath bridge will need replacement by 1995 and that funds should be put aside for the City's portion of the construction of an underpass on Highway 54 West. Total allocation for fiscal year 1995 was \$1,545,200.

— In 1996 the City would like to earmark funds for the construction of a new Recreation Administration Building, and for renovation of the amphitheater cast house. Total allocation for fiscal year 1996 was \$1,580,410.

Projects will be added to the 1997 plan as time goes on. In the plan for 1997 to date are funds for the refurbishing of Leach Fire Station. Total allocation for fiscal year 1997 was \$1,699,929.

A resident came forward to question item 15 in the 1996 plan. Basinger answered that item 15 is a City Hall/Library Canopy connector. It was questioned why there was a need to connect the two buildings when they were so close together. Basinger stated that there was quite a bit of traffic between the two buildings and in rainy weather the canopy would be of use to the citizens.

A resident questioned why there were so many funds going toward the Kedron Village recreation area and why more facilities could not be put in Braelinn Village. Basinger stated that Braelinn Village did have a recreation complex with baseball fields, tennis courts, and basketball courts and that the same type facility was being proposed for Kedron Village, which would be a public facility.

— Mayor Lenox stated that there had been one specific request for moving the training center for the Fire Department into the 1993 plan and asked for comments. Brooks thanked the public for their comments on the Public Improvement Plan and stated that the City needed to be balanced in how the funds were dispersed. He stated that in 1993 there were funds being used for public safety, \$102,000 for the Neely training room, and \$560,000 for the Kedron Fire Station and equipment. He suggested, for the time being, that

the 1993 Public Improvement Plan remain the same, with hopes that it could be moved up, possibly when the insurance funds from the State go up in eighteen months. Lenox stated that he would like to possibly get it into 1994 with the Insurance Premium taxes or to possibly exchange with another item. Bradford stated that he was very interested in training and would like to see the training facility moved up so that the Fire Department could continue to be well trained.

Mayor Lenox called the Public Hearing closed and called for questions or comments from Council.

Basinger stated that Staff recommended that Council adopt the Five Year Public Improvement Plan, with opportunity to change it at budget time. McMenamin moved to adopt the Five Year Public Improvement Plan as presented. Bradford seconded the motion. Brooks stated his support with the proviso that Staff look into the issues brought up in the meeting, a carpath being extended to Parkway Estates. He also felt that the area where Flat Creek road picks up the Parkway was a dangerous area for golf carts and should be looked into. Motion carried unanimously.

5-92-14 Second Reading of Ordinance amending the City Charter adoption of ordinance

Frances Meaders, Director of Administrative Services, stated that this would be the second of two readings required to amend the City Charter to allow Fayette County to maintain Peachtree City's voter registration and lists. Meaders read the ordinance and requested that Council adopt the ordinance. McMenamin moved to adopt the ordinance to amend the Charter. Brooks seconded the motion. Motion carried unanimously.

5-92-15 Bids for City Hall Computer System

Frances Meaders, Director of Administrative Services, reported that the decision had been made last year to replace the City's computer system over the next four years with a state of the art Unix based PC networking system with projects being phased in over a four year period. The first phase would be to replace the City Hall system for which \$86,000 is budgeted in the 1992 Public Improvement Plan. Meaders explained that the project had been bid twice, the first time for software and hardware as a package, and they came in drastically over budget. The second time the project was bid the software and hardware were bid separately, and while it came in over budget, it was more reasonable. The bids were as follows:

SOFTWARE BIDS:

Pentamation Arlington, VA	\$51,840
Eden Systems, Inc. Yakima, Washington	56,985

— Specialized Data 23,590
Greenville, S.C

HARDWARE BIDS;

JWP Information Services \$41,295
Atlanta, GA

Specialized Data Systems, Inc. 38,170
Greenville, S.C.

ExecuSoft Controls 37,660
DBA Computer Solutions
Peachtree City, GA

Sears Business Centers 51,514
Atlanta, GA

— Meaders explained that a committee was set up to review the bids and view the product. The committee unanimously agreed that the software package should be awarded to Pentamation for the amount bid of \$51,840 and the hardware package to JWP Information Services, which bid NCR equipment, for the amount bid of \$41,295, a total cost for the system of \$93,135. This was \$7,135 over budget but Meaders said it could be funded from the current operating budget.

Lynn Morris, Computer Management Specialist with the Department of Community Affairs, who was on the committee and assisted with the specifications and review of bids, came forward to give her support for the software and hardware bids to be awarded as recommended by Staff.

Mr. Costa Solakas, owner of Computer Solutions ExecuSoft Controls, and the low bidder, came forward and asked if the City had considered his bid and questioned why the City chose the system they did. Lynn Morris answered that his bid had been considered but that the NCR equipment was chosen because it better met the requirements of the City. Additionally, the service rendered by NCR, which included a 24 hour hot-line for service, access to the World Wide Parts Center in Peachtree City, that has been made available to the service technicians when parts are needed, was of utmost importance to the City. It was also explained that Peachtree City had been using NCR equipment since 1984 and had a good working relationship with them.

— Mr. Solakas answered several questions from Brooks about his service policy and Lenox stated that he felt Staff had spent much time in considering the bids and was comfortable with Staff's decision. McMenamin stated that her first priority was to support small businesses in Peachtree City and asked Meaders if Mr. Solakas could be called upon for the City's needs in the future. Meaders answered in the affirmative. Bradford made a motion to award the

contracts to Pentamation for the software and JWP Information Services for the hardware. McMenamin seconded the motion. Motion carried unanimously.

5-92-16 Bids for Fourth of July Fireworks

City Manager Basinger reported that the City had solicited bids from four fireworks firms for the Fourth of July fireworks display and received two bids. The company that has done Peachtree City's fireworks the past few years, Southern International Fireworks, Inc. did not comply with the specifications in bidding four inch shells when the specifications required shells at least five inches in size. After reviewing the bids the Staff felt that Southern International was confused since they were allowed to deviate from the specifications last year and bid four inch shells. The project was re-bid allowing four inch shells and the bids received were as follows:

Vitale Fireworks Manufacturing Co., Inc.	\$19,750.00
New Castle, Pennsylvania	

Southern International Fireworks, Inc.	19,890.00
Woodstock, Georgia	

BUDGETED AMOUNT	\$20,000.00
------------------------	--------------------

Basinger stated that it was Staff's recommendation to award the bid for the fireworks display to Southern International Fireworks as the second low bidder based on the fact that the display includes more shells than Vitale Fireworks and they have been providing the City with a good, safe show the last five years.

McMenamin questioned if all the companies were allowed to re-bid and Basinger answered in the affirmative. McMenamin made a motion to award the bid to Southern International Fireworks, Inc. Bradford seconded the motion. Motion carried unanimously.

5-92-17 Bids for Recreation Department Copier

City Manager Basinger stated that the City had solicited bids from seventeen office equipment suppliers for the purchase of one copier for the Recreation Department, and that sixteen firms responded. The following six firms were the low bidders that complied with or exceeded the specifications:

Merchants Business Machines
Norcross, GA

Base Bid - Sharp SF8570	\$6,155.00
Less Trade-In Allowance	0.00
Bid Amount Less Trade-In	6,155.00

Options

----------	----------

Options

Automatic Document Feeder	Included
Automatic Duplex Copying	Included
15 Bin Sorter	Included

TOTAL BID PRICE **\$7,690.87**

BUDGETED AMOUNT **\$5,000.00**

Basinger reported that Staff recommended awarding the bid for the Recreation Department Copier to the low bidder, Merchants Business Machines for the amount bid of \$6,155.00. The amount budgeted was \$5,000 and due to savings on other purchases there was \$5,932 remaining in the Recreation Department Budget Machinery & Equipment and staff recommended transferring \$223.00 from the Recreation Department Budget, Small Tools & Equipment to make up the shortage.

Bradford stated that he would abstain from voting due to a possible conflict of interest. McMenamin made a motion to award the bid to Merchants Business Machines of Norcross, GA and to transfer \$223.00 from the Recreation Department budget, small tools and equipment. Brooks seconded the motion. Motion carried with Bradford abstaining.

5-92-18 Amendment to City Code Section 15-7 relating to use of alcoholic beverages at amphitheater

— City Manager Basinger asked that Council take two actions on item 5-92-18, first, consumption of alcoholic beverages at the amphitheater, second, a temporary rental fee for use of the amphitheater. Basinger reported that at the April 29, 1992 called meeting of the Recreation Commission, the commission recommended

— that the City Council establish an umbrella policy for all adult programs and events at the amphitheater and allow all adult patrons to consume alcoholic beverages. They also recommended that uniform security officers with arrest powers be present and be provided at the expense of the lessee. Current policy does allow for alcohol consumption at City sponsored events with the approval of the Mayor, or City Manager proposed. The policy does not include rentals, and several renters have come forward to request allowing adults to consume alcoholic beverages. Basinger stated that Staff recommended that the ordinance be adopted to allow alcoholic beverages at all adult performances and events. The ordinance was read for the benefit of the public.

A resident came forward to object to alcoholic beverage consumption at any recreational area in Peachtree City.

McMenamin questioned if an agreement could be given to the renter with a check off list that would avoid confusion. Basinger answered in the affirmative. Brooks stated that he would like to see more definitive guidelines in who would be allowed to bring alcohol. McMenamin asked Brooks what he would want more clearly defined. Brooks stated that it should be more clearly defined as to what kinds of groups would be considered adult.

— Police Chief Murray stated that he would need to approve any events coming through for security purposes, and he would not authorize any event primarily for children to bring in alcohol. McMenamin questioned if determining who uses the amphitheater is done by the Recreation Commission or if a committee had been set up. Basinger stated that Marcy Curry would be primarily responsible for determining who was allowed to rent the amphitheater. Marcy Curry stated that the Amphitheater Committee would review any request with Staff and the Police Chief would have to approve the security plan. Brooks stated that the ordinance in place now was more specific on who gets involved in the decision making process and what events are permitted to use alcoholic beverages. Basinger stated that the present ordinance only provides for the Summer Concert Series sponsored by the City. Brooks stated he would like to see the amended ordinance more clearly defined as to who approves request for rental events. Basinger suggested that the ordinance be amended to read that alcoholic beverages may be permitted with the approval of the amphitheater committee, director of recreation and the City Manager or Mayor at those performances and concerts except those designated as primarily for those under 21 years of age. Brooks made a motion to table the item until the next meeting to work the ordinance out. McMenamin seconded the motion. Motion carried unanimously.

— Mayor Lenox stated that there had been a specific request from the Fayette County Chamber of Commerce, for the concert to be held at the amphitheater on June 6, 1992, that attenders be allowed to bring in alcoholic beverages. Bradford made a motion to approve alcoholic beverages at the "Shirelles" concert. McMenamin seconded the motion. Motion carried unanimously.

Basinger stated that the second part of item 5-92-18 was to set temporary rental fees for the amphitheater, while waiting for a recommendation from the Amphitheater Committee. Bradford stated that the last time the fee had been set was in 1980, so it did need to be adjusted. Basinger stated that Staff recommended setting the fee at 12 1/2 % of the gross receipts or \$500.00, whichever is greater. Lenox questioned the fee, and stated that some of the rentals were for charitable organizations and that the fee would cut into those profits. Bradford reminded Council that the amphitheater was working on twelve year old fees, and was a new building that needed maintaining and staffing. Bradford moved to adopt the new policy. Brooks seconded the motion. David Smith, Southern Sanitation, questioned if a non-profit organization could work under a ceiling so as to not take away profits for a charitable organization. Basinger stated that the committee was working on a schedule that would include provisions for charitable organizations and that this would be a temporary schedule. Motion carried unanimously.

5-92-19 Hear citizen comments on recent amendments to the animal control ordinance

Mayor Lenox stated that amendments to the animal control ordinance were to go into effect on May 15, 1992 and due to citizen concerns, implementation had been delayed until June 1, 1992 so that citizens could voice their concerns. Brooks stated that he asked for the implementation to be delayed, to try to come up with an equitable solution to take care of pet owners, and to also ease the concerns of citizens that are bothered by animals in their neighborhoods.

Mr. E.B. Evans, resident of the St. Andrews Square subdivision, stated that he had a problem with Sec 1(a) requiring that all animals be contained by leash or fence and he does not want to contain his cats. He also pointed to Section 2(a) that deals with voice command, and asked what constitutes being under voice command.

Mr. Dave Waggoner, resident of the Chestnut Field subdivision, spoke on behalf of the amendments and questioned if there was an ordinance stipulating the number of animals a person could have on their property. Mr. Waggoner stated that his neighbors had numerous animals that roamed his yard.

A resident came forward to protest the mandatory spaying and neutering of animals after they are picked up by Animal Control the second time. He felt this was a violation of his rights and stated that his animal was under voice control and he did not wish to fence him or have his pet spayed or neutered.

Many residents came forward to voice their concerns both for and against the amendments with major concerns that the leash law applied to cats as well as dogs. Several residents came forward to voice concerns about the leash law and stiff fines to be imposed by

the City. In responding to the question about how many animals a person could own, City Attorney Jim Webb, reported that the zoning ordinance stipulates that a residence having more than three animals is considered a kennel and a kennel is prohibited in a residential zoning area. Brooks stated that the leash law has been on the books for ten years and that this part of the ordinance was not being changed, only the fines for violations and the mandatory spaying and neutering. Point was made that provisions were made in the City Code for filing a nuisance complaint if a problem with animals could not be resolved.

Brooks stated that he believed the fines were possibly too high and that Staff could look into lowering fines for a first offense. Attorney Webb stated that for the first offense it is stipulated that a fine of \$100.00 would be imposed upon the owner, and "up to \$100.00" could be put in to leave it up to the discretion of the judge in fining for a first offense. Brooks asked Mr. Bill Newman, Director of the Fayette County Animal Shelter, if that would be agreeable to him since his department enforced the ordinance in Peachtree City. Mr. Newman stated that the words "up to \$100" would be fine for a first offense, but that the second and third offense should stand at \$250 and \$500 and should not be lessened. After two hours of discussion on the amendments to the animal control ordinance, Mayor Lenox stated that he felt the amendments to the animal control ordinance were in the best interest of the public and did not wish to change them other than the fine for the first offense. The Mayor made a motion to change the fine for the first offense to up to \$100 and have the ordinance implemented on June 1, 1992. Bradford seconded the motion. Motion carried unanimously.

There being no further business to come before Council Lenox made a motion that the meeting be recessed to be reconvened in executive session to discuss the Black lawsuit. McMenamin seconded the motion. Motion carried unanimously.

Executive Session

No action was taken in executive session and Brooks made a motion to adjourn at approximately 11:45 PM. McMenamin seconded the motion. Motion carried unanimously.

Angie Stevens, Asst. City Clerk

Mayor

Attest
