Call to Order

The Mayor and Council of Peachtree City met in special called session on Tuesday, June 4, 2024. Mayor Kim Learnard called the meeting to order at 6:30 p.m. Council members attending: Laura Johnson, Suzanne Brown, Clinton Holland, and Frank Destadio.

The Mayor welcomed everyone, saying a budget workshop would follow this meeting. Another budget workshop was scheduled for June 18 at 6:30 p.m., and the next Council meeting would be at 9:30 a.m. on June 20.

Pledge of Allegiance and Moment of Silence

Public Comment

Kedron Hills resident Tim O'Brien said he did not advocate opening Crabapple Lane back up to automobile traffic but did support opening it to golf cart traffic from Tyrone. He reflected on the low turnout at a homeowners association (HOA) meeting to discuss this issue, as well as the relatively small number of people at this Council meeting. O'Brien noted that the County was denying Peachtree City \$1.7 million in Transportation Improvement Plan (TIP) money and was threatening other services because of this minority opinion that Crabapple Lane remain closed.

Donald Myers said Crabapple was closed to halt shortcut traffic down Loring Lane to a cart path or out the entrance of the subdivision. He pointed out that the playground and pool were on Loring Lane. New residential development in Tyrone would make the situation worse if the road had not been closed, and he asked that it remain so. He suggested Council re-visit selling a portion of Crabapple Lane to the HOA.

Ned Colgrove showed photos of his children, saying they were frequent users of the pool and playground. Kedron Hills had no sidewalks, so they needed safety while walking to the recreation areas.

Jennifer Braden said it was a no-brainer several years ago to close Crabapple Lane to cars, and it was the City Council that suggested it be closed to carts, too. She said she had asked County Manager Steve Rapson to put pressure on Tyrone to solve the problem and added that Rapson said there was no plan to cut off animal control or other services to Peachtree City if they did not reopen the road.

Mark Carlton said he observed an immediate reduction in traffic when the locked gate was installed and urged Council not to back down.

Kedron Hills HOA President Scott Beamer said closing Crabapple was the right thing to

do, and the residents remained committed to keeping it closed. He said neither the County nor Tyrone appeared to have any interest in finding a solution, although there were several viable options that would create an access point without going through the subdivision.

Katrina Hitchens said her family chose Kedron Hills because of the many families with children there. Opening Crabapple Lane created a dangerous through-road through the subdivision.

Joan Brennan-Adkins also mentioned traffic from the new developments if the road was re-opened. It would be unsafe, reduce property values, and the additional noise from the gas-powered carts would reduce their quality of life. She noted that the Comprehensive Plan and the Zoning Ordinance assigned the construction of path connections to developers, and that also should apply to developers outside of the city who would benefit from this access.

Todd Weinreb noted that nothing in life was free, and Tyrone should make an effort to create and fund its own path connection.

Zach Braden said Peachtree City, Tyrone, and Fayette County should collaborate on a solution and implored Council not to let down the citizens in Kedron Hills.

Minutes

A. May 16, 2024, Regular Meeting Minutes

Holland moved to approve the May 16, 2024, regular meeting minutes. Destadio seconded. Motion carried unanimously.

Consent Agenda

A. FY2024 Budget Amendment- Reclassification of Human Resources Coordinator to Human Resources Generalist

Johnson moved to approve the Consent Agenda. Holland seconded. Motion carried unanimously.

New Agenda Items

A. Approve purchase contract for property located at 104 Guthrie Way, Peachtree City, GA 30269

City Attorney Ted Meeker said this was adjacent to the gun range property the City already had under contract, and this contract was virtually identical.

Holland moved to approve New Agenda item A., purchase contract for property located at 104 Guthrie Way. Destadio seconded. Motion carried unanimously.

B. FY2024 Budget Amendment - Allocate funds for Police Annex Building

Interim City Manager Justin Strickland said this was a budget amendment to allow them to move funds around to complete the purchase of the gun range property

and the additional property they had just approved. It also included funds to start the renovation of the gun range property.

The amendment was for \$8.5 million, with \$3.2 million coming from the Facilities Authority Bond, \$400,000 from impact fees, and the remainder from cash reserves. Strickland explained this was a good use of cash reserves as a one-time purchase of property that would go back into the books as an asset.

Holland moved to approve New Agenda item B, FY2024 Budget Amendment - funds for Police Annex Building. Destadio seconded. Motion carried unanimously.

Council/Staff Topics

A. Transportation Advisory Group

Council had said they would like to start several citizen advisory groups, and this was a draft plan for the first, a Transportation Advisory Group. A temporary path advisory group met several years ago, Strickland noted, but this would be a permanent group that looked at all forms of transportation. The draft outlined what the group would look like, how members would be selected, and some broad objectives.

Destadio verified that that Mayor would be an ex-officio member. Destadio said he liked the application process, and Strickland said they wanted a competitive procedure like the Planning Commission and Airport Authority used.

Brown asked if there would be term limits for the seven members, remarking that the Planning Commissioners were appointed for three years.

Meeker clarified that she did not mean term limits, but terms that would expire in three years. Brown said that was what she meant; members could re-apply after their term was up. Destadio noted that was how the Planning Commission worked.

Johnson's concern was that it required a member with a child from age 12 to 17, and she thought parents of younger children should be represented. Brown pointed out that one of the member slots was designated for a person with a minor child of any age. Johnson said she just wanted to make sure parents of younger children were represented.

Holland said he was glad to see this and promised that more groups were in the works. He liked the idea of the vetting that would be part of the application process.

Learnard told Strickland there would be three-year terms, and Interim Assistant City Manager Yasmin Julio said they would have to be staggered terms at first.

B. June 6, 2024, City Council Meeting Canceled

The City Council meeting scheduled for June 6 had been cancelled.

C. Mayor Pro Tem Destadio named Knight of the Year by the Georgia Knights of Columbus

Holland announced that Mayor Pro Tem Destadio had been named Knight of the Year for the State of Georgia by the Knights of Columbus.

D. Flag Day - June 14th

Brown noted that June 14 was Flag Day. Destadio stated that worn flags could be disposed of in the American Legion drop box beside the flagpole at City Hall.

E. Municipal Elections

In 2022, Brown reported, the County projected that the special municipal election would cost the City \$80,000, but the invoice submitted was for \$133,000. After it was readjusted, it went to \$93,000.

She went on to say that many Georgia cities ran their own elections with paper ballots that could be hand counted. She proposed a feasibility study to look at the costs involved in conducting an election. Municipalities were allowed to determine how many polling places there were, how many days of early voting were allowed, poll opening hours, pay for workers, and whether to use paper ballots. All voting could be done at the library, she suggested. They needed an analysis of what they could do, as well as an analysis of the costs. She cited Milton as an example of a Georgia city that had taken over its elections.

Brown moved to add the topic "Conducting our own Municipal Elections, and a discussion and determination of possibly doing a 'Financial Feasibility Study' to determine if it would be a financial advantage to the Peachtree City citizens to conduct our own Municipal Elections" to the June 20 City Council Agenda. Holland seconded.

Destadio commented that he brought this up a year ago, and they voted to conduct a feasibility study, but it never went anywhere. Holland agreed.

Learnard said it might not be realistic for staff to get this ready by the next Council meeting, but it would be a good topic for the Council retreat at the end of July.

Johnson agreed that was a good suggestion. Learnard said they needed to know what was meant by a feasibility study. Holland said it should be done by a third party.

They could not delay too much and get this done in order to implement it by the next election, Brown said. She did not know if they needed a third party to do the study and suggested citizens and staff conduct it.

Learnard said she did not think it was fair to request the busy staff to come up with

something by the June 20 meeting. Brown said she would like to present more information at the next meeting, then they could make a determination. She could do that in Council/Staff topics, Learnard replied. Brown said she just wanted it added to the agenda so they could discuss it and decide how to proceed.

The next municipal election was at the end of 2025, Holland remarked. Was there enough time to do this?

Meeker said they usually signed the intergovernmental agreement (IGA) with the County in the first quarter of an election year.

They would need a superintendent of elections, and Brown said the City Clerk was too busy to take on that role. In order to get someone who would meet the qualifications, they needed to start as soon as possible.

Holland suggested moving this to the July Council meeting in order to get a start on it, then discuss it at the retreat. Strickland asked Brown to read her motion again. Brown did and said she wanted to do a presentation at the June 20 meeting.

Would that be a presentation or a new agenda item? Julio asked. An agenda item with a presentation in which they discussed it more in detail, Brown replied, and Holland said they did not have to make a decision before the retreat.

Strickland said if this was something they were looking at seriously, a shorter timeline would put them in a bind. Julio asked if Council wanted staff to gather information for a presentation and what they were looking for. Staff could at least find out how much a third-party study would cost, Strickland remarked. Brown agreed that she could gather other information. Destadio said Council had already agreed to a preliminary study, and they had Margaret Ross and the City of Milton to refer to as having already done it.

Julio said Milton started running its elections because the pricing from Fulton County tripled. Peachtree City was facing no such cost increase from Fayette County and would not see savings such as Milton had. Reducing the number of polling locations would reduce costs that were currently shared with other cities, and they could also lessen the number of early voting days. Julio said she recommended a study by an outside agency.

Holland asked Meeker's advice on altering the motion. Holland withdrew his second in order to change the date to July 11. Strickland said that was feasible; it would allow staff to finish with the budget and was better than waiting until August.

Brown withdrew her motion and made a new one, moving to add the topic "Conducting our own Municipal Elections, and a discussion and determination of possibly doing a 'Financial Feasibility Study' to determine if it would be a financial advantage to the Peachtree City citizens to conduct our own Municipal Elections"

to the July 11 City Council Agenda. Holland seconded.

Strickland said staff would be checking on the cost of a feasibility study in the meantime. Julio said she would be looking to see what other cities paid for elections.

Motion passed unanimously.

There being no further business, Holland moved to adjourn at 7:38 p.m. Destadio seconded. Motion carried unanimously.

Call to Order

The City Council of Peachtree City met for a workshop on Tuesday, June 4, 2024, at City Hall. Mayor Kim Learnard called the workshop to order at 7:49 p.m. Others attending were Mayor Pro Tem Frank Destadio, and Council Members Laura Johnson, Suzanne Brown, and Clinton Holland.

General Discussion

A. FY2025 - Budget Workshop

Interim City Manager Justin Strickland said this would be an overview of national and local trends, as well as the City's accomplishments over the past year. He reviewed the City vision statement and values, saying they served as excellent guidelines. Council adopted five strategic pillars, or goals, at a retreat earlier this year, and Strickland stated that whatever they did should feed back into one or more of these pillars, as well as into the vision.

Any deviation from baseline spending had to be funded through designated revenue or comparable expense reductions. Strickland also noted that everything had a cost in manpower, money, machines, or materials, usually in multiples of those four Ms.

Last year, inflation overall was 4.8%, and 7.7% for food. It had slowed to 3.3%, and 2.2% this year. Strickland showed fluctuations in the consumer price index over the past 20 years, indicating the jump and subsequent stabilization since COVID. The overall cost of goods was up 22% since 2020. As of April, home prices in Peachtree City had increased by 8.8% since the first of the year. Strickland said a house listed in Peachtree City would be under contract in less than three weeks.

Labor was the biggest expense for the City, Strickland remarked, and services were dependent on that labor. He showed that earnings nationally for full-time workers went up by 20% from 2009 to 2019, then by 23% since 2020. Peachtree City's costs for supplies and services had remained relatively steady, thanks to careful management, but personnel costs had increased.

Strickland pointed out a 7% cost of living adjustment for all employees in 2022. A major pay plan with pay adjustments for more than 200 employees went into effect over the past year. It also allowed them to hire more people to fill vacancies. In 2019, personnel made up about 66% of expenses and that rose to 73% in 2024. He noted that this was not just salaries, but the total benefits package.

A pie chart of fiscal year (FY) 2025 expenses showed personnel costs totaling more than \$38 million of the budget, versus \$10 million for services, and \$4 million for supplies. Of that \$38 million, 60% went for Public Safety, while 12% was for Public Works, and 8% was for Recreation, for a total of 80%. When several other departments were added in, this meant that 87% of the personnel budget was used for public-facing service jobs.

Strickland then noted that technology costs had increased by 26% for FY 2025. This was partially because software was now sold as a cloud-based subscription, rather than a one-time purchase, and also because of the need for more sophisticated protection from cybercrime.

He then explained that the City's philosophy for more than 20 years had been to support Public Safety through the most stable and controllable revenue source—ad valorem taxes. Expenses were a little higher than tax revenue coming out of the Great Recession in 2013 but became balanced until 2022 when Council approved a full millage rollback. Property tax revenue had been lower than expenses since then and would continue if FY 2025 remained stable.

In FY 2025 they would be looking at about \$25 million in ad valorem taxes while accruing \$28.5 million in Public Safety expenses, making the expense coverage about 89%. With a millage reduction of .044, which would take them to 5.99 mills, the percentage covered would be about 88.5. Tax savings to the owner of an average priced home (about \$508,000) would be \$8.96, and the reduction would cost the City about \$179,000. A drop of .1 mill would get revenue just below \$25 million, and the percentage of coverage would dip to 87.5. The owner of an average home would pay \$20.35 less, which would cost the City \$389,000.

Because the digest had not yet come from the County, they did not know what the rollback rate would be, Strickland commented, but based on information they had, they were looking at a .299 mill reduction for a full rollback. Revenue would be right at \$24 million, making the gap \$4.3 million and dropping Public Safety coverage below 85%. That millage rate of 5.744 would result in a savings of \$60.85 to the homeowner and cost the City \$1.6 million.

While staff was not recommending a millage increase, Strickland said they had looked at what it would take to again cover Public Safety expenses and found there would need to be a .8 millage increase. However, the City had other revenue sources, and he said again they were not recommending an increase.

Interim Assistant City Manager Yasmin Julio provided a look at what it cost to live in Peachtree City and what citizens got for their tax money. Many people thought Peachtree City property taxes were high compared to other Fayette municipalities, and, on the surface that was true, with Tyrone having a millage rate of 2.889, Fayetteville 5.656, and Brooks 1.207, compared to Peachtree City's 6.043.

But then she showed the total millage when the municipal and county millage rates were combined. The Board of Education millage rate was excluded. Tyrone's and Fayetteville's millage rate exceeded Peachtree City. One reason was that property owners in Tyrone, Brooks, and the unincorporated county paid a fire millage rate. Peachtree City and Fayetteville residents did not because they had their own Fire Departments paid for by municipal taxes. Taxpayers in Tyrone, Fayetteville, Fayette County, and Brooks paid the County for emergency medical services (EMS). Peachtree City had its EMS included in the city millage rate. These charges were why Tyrone and Fayetteville exceeded Peachtree City's millage.

The average home of \$508,000 in Peachtree City would get a tax bill of \$6,173. Two-thirds of that would go to the Board of Education. City taxes would be about \$1,200, or 20% of the total, while County taxes made up the remainder.

Julio then added in the Board of Education tax just to see what the total taxes were on a \$508,000 house in different parts of the county. Tyrone residents paid the most, followed by Fayetteville, then Peachtree City, Brooks and unincorporated Fayette County. Within all the jurisdictions, there was only a difference of \$590, and Peachtree City, Tyrone, and Fayetteville were all within \$85 of each other.

While the tax bill was about the same no matter where you lived in Fayette County, Peachtree City residents benefitted from amenities other places did not offer. Julio pointed out the ISO 1 rated Fire and EMS services, dozens of parks and recreation areas, a premier public library, the multi-use path system, neighborhood sign and median maintenance, and the CALEA accredited Police Department. For all that, it cost just \$1.38 more to live in Peachtree City than in unincorporated Fayette or Woolsey.

Strickland added in many behind the scenes departments including ground and facilities maintenance and human resources.

Councilman Clint Holland pointed out that Peachtree City residents paid \$15 a year for cart registration, while residents from outside the city had to pay \$250. If that were added, it would get the tax rate very close to the County's.

Strickland went back to the strategic pillars and gave examples of how they had improved some aspects of the city. Firstly, he cited the new free Navigate PTC app that provided direction on the multi-use paths.

Most of the Public Safety purchases were coming from the Special Purpose Local Option Sales Tax (SPLOST), and Strickland showed a photo of the rescue unit that had arrived this year. Fire engines and police vehicles were also purchased.

Another safety item that had received good feedback from citizens was LED flashing stop signs, and more were on the way.

Strickland compared the appearance at the Field of Hope baseball facility this year to last year and did the same with Riley Track. The football building at Riley Field had been repaired, and a wall installed to give young pitchers a place to throw balls other than against the building.

Storm damage at the Flat Creek boardwalk had been repaired. Strickland showed a photo of a repair that had been done at a tot lot and added that issues at many playgrounds had been repaired over the year. The path at All Children's Playground had been resurfaced.

The City took over direct management of the Tennis Center this year and had done a lot of renovations. He said the transition went smoothly, and they were able to retain a lot of staff as City employees.

City Hall got a facelift with cleaning, painting, resealing, and new landscaping and would be getting a new metal roof and sign this summer. City signage had been updated over the past few years, and more was to come, including new village signs, with \$180,000 set aside in the 2023 SPLOST. Strickland showed a photo of the new gateway landscaping project at the bridge on SR 54 West. Another photo illustrated median maintenance.

Another pillar called for a thriving business community, and Strickland mentioned the Gerresheimer expansions, along with expansions of Aventure Aviation, Hoshizaki, and SP Mediatech.

Strickland then explained the repairs and renovations at Fire Station 82 and talked about the LED lights at the Public Works maintenance facility. He went over the numerous awards earned by the Public Communications department, talked about the stage lighting upgrades at The Fred, and mentioned the PTC 101 class for citizens and the student internship program. Strickland showed renovations on the lower level of the Tennis Center that was now being used as office space.

The next budget workshop would be Tuesday June 18, with the public hearing on the budget set for July 11. The budget and the capital improvement program were set to be adopted on August 1, and the Convention and Visitors Bureau and Keep Peachtree City Beautiful budgets adopted on August 15.

Adjourn

There being no further business, the Mayor adjourned the workshop at 8:52 p.m.

SUBJECT: FY2024 Budget Amendment for Axon Agreement

Recommendation:

Approve FY2024 budget amendment in the amount of \$391,118 to allow execution of an agreement with Axon Enterprises to provide a suite of hardware and software solutions for the police department.

Discussion:

The police department utilizes Taser electronic control weapons, body cameras, fleet cameras, and online evidence storage that originate from Axon Enterprises. Tasers have an expected 5-year life cycle and are purchased through a 5-year contract that includes the Tasers, cartridges, training materials, spare units, and software needed to maintain this capacity. The police department's current 5-year contract is set to end in October 2024, necessitating a new contract to maintain operational readiness in this important area of operation. The police department has a separate contract for fleet (in-car) cameras and body cameras provided by Axon. That contract is currently not set to expire until FY 2026.

The police department has experienced numerous challenges with its current records management system (RMS), which is used to create and house police reports and other related materials/functions. After extensive research on different solutions in the market, it was determined that Axon Enterprises' RMS solution is the best alternative and provides the opportunity for improved interoperability between our other Axon products and the RMS since they operate within the same digital ecosystem. Axon offers licenses for their RMS as part of an "Officer Safety Plan" that includes Tasers and body cameras. If the police department transitioned to this Office Safety Plan, it would include the licensing for RMS and several other software add-ons that provide considerable value. Examples include an automated "redaction assistant" that drastically reduces personnel hours required to manually redact videos requested in open records requests, Axon's Community Request capabilities to help obtain crucial video evidence from citizens directly through the evidence.com ecosystem, live-streaming capabilities during critical incidents that allow situational awareness for

officers that are not yet on the scene, and virtual reality training for expanded de-escalation scenarios.

Staff recommends entering a new Officer Safety Plan agreement with Axon to take effect during FY 2025 and making an amendment to the current fleet/body camera contract that would move the body cameras to the Officer Safety Plan. Due to extended implementation timelines, a contract would need to be executed in FY 2024 to obtain a FY-2025 completion. Axon Enterprises is currently a Brand Name vendor with the City. In addition to the Officer Safety Plan, which includes the hardware and software for Tasers, body cameras, RMS, digital evidence storage, and several additional services, the police department would enter a separate professional services agreement with Axon to conduct the customization, setup, and initial training for the RMS to meet the specific needs of the agency. The professional services portion is a one-time (non-recurring) fee broken into 3 individual payments, the first of which is not due until FY 2026 due to the implementation timelines.

The annual budget impact is shown below. Please note that these costs are not entirely new to the budget. The current annual police department budget would otherwise contain \$203,793 / year for body and fleet cameras, \$53,240 / year for RMS, and \$46,370 / year for Tasers (the current Taser contract was prepaid in full).

	FY 25	FY 26	FY 27	FY 28	FY 29
Officer Safety Plan	\$261,070	\$261,089	\$271,532	\$282,393	\$293,689
Fleet	\$130,048	\$130,048	<i>New Fleet Contract Needed</i>		
RMS One-Time Fees		\$193,173	\$159,189	\$159,189	
	\$391,118	\$584,310	\$430,721	\$441,582	\$293,689

Budget Impact:

This will increase both revenues and expenditures in the General Fund.

CITY OF PEACHTREE CITY

INTEROFFICE MEMORANDUM

MEMO TO: Mayor and City Council

VIA: Justin Strickland, Interim City Manager

FROM: Yasmin Julio, Interim Assistant City Manager 6/12/2024
Justin Strickland, Interim City Manager 6/14/2024

DATE: June 20, 2024

SUBJECT: 06-24-03 First Reading of Ordinance 1220 Alcohol Broker License

Recommendation:

Approve ordinance #1220 Alcohol Broker License.

Discussion:

When the current alcohol ordinance in Chapter 6 of the Peachtree City Ordinance was written, Alcohol Brokers and other virtual occupations did not exist and, therefore, were not included in the ordinance. The current ordinance requires that everyone who sells alcohol in the city must have a license. Since an Alcohol Broker does sell alcohol, our current ordinance requires a license even though we do not have a specific definition that meets their criteria. This revised ordinance would include a definition and process for Alcohol Brokers to be issued a license. An Alcohol Broker would be described as "any person who purchases or obtains an Alcoholic Beverage from an Importer, distillery, brewery, or winery and sells the Alcoholic Beverage to another Broker, Importer, or Wholesaler without having custody or possession of the Alcoholic Beverage or maintaining a stock of the Alcoholic Beverage".

The fee associated with this new type of alcohol license will also be added to the fee schedule.

Budget Impact:

The impact on the budget will be positive, as every Alcohol Broker will have to pay a fee of \$200.00 per year to be issued their license.

SUBJECT: 06-24-05 ADA Transition Plan and Policies

Recommendation:

Approve the attached ADA Transition plan, the proposed revisions to CAR 6-2 and CAR 6-4 and authorize staff to submit the transition plan to the Georgia Department of Transportation (GDOT).

Discussion:

For the City to remain eligible for Federal Grants, the City must prepare an Americans with Disabilities Act (ADA) Transition Plan that outlines how the City intends to comply with the act. Staff has prepared a plan that addresses compliance with the city's roads and paths/sidewalks. As an example, the plan specifically addresses how we intend to assess and upgrade cross-walk curb ramps and solicit public input. The complete requirements and our plan of attack are outlined in the attached plan document.

The second phase of the ADA Transition Plan is to address compliance with City buildings/facilities. This part of the plan is covered by a 15-page checklist that needs to be filled out for each facility. This part of the plan will be a lengthy process and the GDOT is working with staff to develop a timeline to allow us to hire a consultant and evaluate our facilities.

Therefore, Staff is recommending that the Council approve the attached plan and authorize us to forward it to GDOT to remain in compliance. We will continue to maintain and update the plan as necessary.

Budget Impact:

There is no budget impact for submitting the attached plan. Budget impacts will come in the implementation of the various parts of the plan and will be incorporated into various future department budgets.

ADA Transition Plan

2024 – Streets, Multi-Use Paths and Sidewalks

I. Introduction

Peachtree City is one of the most affluent communities in Georgia with a median household income of \$111,850 (source: 2022 American Community Survey 5-Year Estimates), and a population of 39,562. The city continues to benefit economically from its location within the Metropolitan Atlanta area and situated just south of the world's busiest airport, the Atlanta Hartsfield Jackson International Airport. Strategically located along the CSX rail line connecting Atlanta directly to the Brunswick and Savannah deepwater ports, Peachtree City has over 2,044 acres dedicated to industrial use. Over 356 acres are still available for future industrial growth.

There are 20,719 jobs located in Peachtree City (source: Census OnTheMap). Of these jobs, 3,528 are within the manufacturing sector. Peachtree City is home to many internationally based manufacturers such as Rinnai, Sigvaris, TDK, Panasonic, and Hoshizaki. The Chinese-based SANY Corporation calls Peachtree City home for their North American headquarters as does the Dutch Innovative Packaging Network. Gerresheimer recently announced plans to expand their medical equipment manufacturing capacity in Peachtree City by building over 200,000 square feet of manufacturing space and adding at least 200 new jobs.

The workforce of Peachtree City is highly skilled and educated with over 97% having a bachelor's or higher degree. The greatest proportion of the Peachtree City workforce (20%) works in management jobs making a median earning of \$200,761. (source American Community Survey 2021). Other sectors that many of our residents work in include Transportation and Warehousing, Health Care, and Educational Services. Overall, this strong foundation in a variety of trades makes Peachtree City a great place to call home

II. Policies and Procedures

- a. Construction, alteration, maintenance and repairs for pedestrian crossings and curb ramps.
 - i. Peachtree City Public Works will be responsible for coordinating this effort.
 - 1. Public Works will prioritize installing new curb ramps or maintaining existing curb ramps during the resurfacing process of City streets.
 - 2. New striping or re-striping of pedestrian crossings will also occur during the resurfacing process.

III. Long Range Plan

- a. City's long-range plan for construction, alteration, and/or repair of highways, roads, streets, sidewalks, pedestrian crossings, and curb ramps
 - i. Peachtree City Public Works, Engineering Services, and Planning and Zoning will be jointly responsible for coordinating this effort.
 - 1. The City currently has a multi-use master plan for the future creation of paths and roadway crossings. This plan is located on the City's website at the following location: [Multi-Use Path System | Peachtree City, GA - Official Website \(peachtree-city.org\)](https://www.peachtree-city.org/multi-use-path-system). It's utilized to prioritize and budget for these future projects, with the plan being updated every 10-years. The city's goal is to construct/reconstruct/repave 10 miles of path per year. Additionally, in 2023, voters passed by referendum a SPLOST project which will include a complete inventory and analysis of all 239 at-grade crossings and transitions (curb ramps) to roads throughout the city. This project will fund the design of all crossings and transitions to be brought up to current MUTCD standards as well as providing smooth transitions for carts, walkers, cyclists and disabled citizens.
 - 2. The City currently utilizes a Geographic Information System and a pavement management program to prioritize street repairs/resurfacing annually. The pavement management program calculates a Pavement Condition Index (PCI) for each road and the data used in these calculations is updated every five years.

IV. Requests for Curb Ramp Installation/Modification

- a. The City has instituted a "Report a Problem" portal on the City's website. This portal has a specific option to report an ADA issue. As with the other

options on the page, the problems are routed to the appropriate department depending on the specific issue. For curb ramp issues, the Public Works and Engineering Services Divisions will review the requests and determine the appropriate course of action. Requests for new curb ramps/modifications will be put on a list to be addressed when the road is resurfaced. If the request is to address a specific issue a person with disabilities is having, a Service Order will be created for the Street Department address.

Website portal location is [Report a Problem | Peachtree City, GA - Official Website \(peachtree-city.org\)](https://www.peachtree-city.org/Report-a-Problem)

V. Maintenance Policy

- a. The city currently has its streets and multi-use paths on a regular maintenance cycle and does several miles of resurfacing per year. The City's policy on curb ramp maintenance will be to perform maintenance on them when the street is repaved or when the path or sidewalk is resurfaced, whichever comes first.

VI. Curb Ramp Survey

- a. The City has a Geographic Information System (GIS) inventory of all the curb ramps and crossings maintained by the city. There are 274 crossings and 1130 curb ramps. The city has currently hired a company (IMS) to drive and survey all the paths to determine if transverse and longitudinal slopes are in compliance with ADA standards. This project is expected to be completed by November 2024, at which time staff will review the data and determine which curb ramps are newly installed and compliant and update the GIS database accordingly. Inventory map attached as Appendix A.

VII. Citizen Input

- a. The city will solicit citizen input via an online survey shared in our e-newsletter, printed materials and social media platforms. The survey questions will be prepared by the Communications Department with input from the ADA Coordinator and other department heads.
- b. The city will maintain an online option dedicated to citizens to submit input relating to ADA concerns. The city will advertise a graphic promoting the website on social media and in our e-newsletter at least once per year.

VIII. Chart of Mitigation

- a. Currently the city is in the process of assessing its inventory. This work should be completed in the next few months. Staff will develop a plan of needed corrections with anticipated resolution, date, and cost by October 30, 2024.

IX. Public Requests

- a. The Engineering Department will maintain a list of all public requests. Every

year during the budget process staff will evaluate any requests that have not already been addressed. They will be prioritized for construction funding consideration, deferment to later year, or for long term consideration.

X. ADA Coordinator

a. ADA Coordinator:

Dr. Teaa Allston-Bing,
Director of Human Resources and Risk Management
151 Willowbend Road,
Peachtree City, Georgia 30269
tallstonbing@peachtree-city.org
ph:770-632-4276

XI. Complaint Procedure

- a. Under CAR 6-2, it is the policy of the City of Peachtree City to provide reasonable accommodation to the known physical and/or mental disabilities of persons wishing to access the City's programs and/or facilities when it is possible to do so without creating an undue hardship on the City. This policy is established to ensure that all citizens have equal opportunity to enjoy the programs and facilities the City provides.
 - i. It is the obligation of an individual with a disability to advise the ADA Coordinator of the need for accommodation in a city program or in a city facility. The ADA Coordinator will consult with the individual with the disability to determine their specific physical or mental needs as they relate to the program or facility and identify potential accommodations that would enable the individual to access the program and/or facility.
 - ii. If the cost of an accommodation would pose an undue hardship, the individual has the option of providing the accommodation or paying that portion of the cost that would constitute an undue hardship on the City. If it is determined that accommodation is not reasonable, the ADA Coordinator will advise the individual with a disability, in writing, of that determination. The individual may appeal the decision through the ADA Grievance Procedures. (Policy number/Ordinance number will change once approved.).
- b. Under CAR 6-4 a committee of City employees has been named and charged with the responsibility of ensuring compliance. They are as follows:
 - iii. ADA Coordinator is responsible for all aspects of employment for both applicants and current City employees.
 - iv. Engineering Services Director and City Fire Marshal are responsible for all facilities access.
 - v. City Clerk is responsible for all program access.
 - 1. Requests and/or complaints are reviewed by the appropriate

committee member who renders a written decision within five (5) working days of receipt of the request/complaint.

2. If the grievant disagrees with the decision he/she has thirty (30) calendar days to file a written appeal with the City Manager.
 3. The City Manager investigates the situation and renders a written decision within ten (10) working days.
 4. Should the grievant disagree with the decision of the City Manager, he/she has thirty (30) calendar days to file a written appeal requesting a hearing before the City Council. After hearing all of the evidence, the City Council has to render a decision and advise the grievant within ten (10) working days in writing of the decision. The decision of the City Council is final.
- b. After review of the above policies certain updates need to be made and are shown in the attached Appendix A. Staff will take these proposed changes to City Council in August 2024.

XII. ADA Coordinator Training

- a. The ADA Coordinator has a training budget and will ensure that appropriate training is attended each year.

XIII. Accomplishments List

- a. The city has a GIS inventory of assets and an asset management program that will enable tracking of corrections made. Once the other above items are implemented, we will begin tracking accomplishments.
- b. The city has solicited input from residents relating to ADA concerns throughout the city.

Capital Improvements Element

2024 Annual Update

Financial Report & Community Work Program

*Adopted by Mayor and City Council
June 20, 2024*

City of Peachtree City, Georgia

Introduction

This Capital Improvements Element (CIE) Annual Update has been prepared based on the rules and regulations pertaining to impact fees in Georgia, as specified by the *Development Impact Fee Act* (DIFA) and the Department of Community Affairs (DCA) documents *Development Impact Fee Compliance Requirements* and *Standards and Procedures for Local Comprehensive Planning*. These three documents dictate the essential elements of an Annual Update, specifically the inclusion of a financial report and a schedule of improvements.

According to the *Compliance Requirements*, the Annual Update:

“...must include: 1) the Annual Report on impact fees required under O.C.G.A. 36-71-8; and 2) a new fifth year schedule of improvements, and any changes to or revisions of previously listed CIE projects, including alterations in project costs, proposed changes in funding sources, construction schedules, or project scope.” (Chapter 110-12-2-.03(2)(c))

This Annual Update itself is based on the Peachtree City Capital Improvements Element, as adopted by the City on April 9, 2017.

Financial Report

The Financial Report included in this document is based on the requirements of DIFA, specifically:

“As part of its annual audit process, a municipality or county shall prepare an annual report describing the amount of any development impact fees collected, encumbered, and used during the preceding year by category of public facility and service area.” (O.C.G.A. 36-71-8(d)(1))

The City’s fiscal year runs from October 1 to September 30. Thus, the financial report included here is based on the audit prepared for FY 2023. The required financial information is summarized in Table 1, and detailed information for each public facility category appears in Tables 2 through 5.

Schedule of Improvements

In addition to the financial report, the City has prepared a five-year schedule of improvements (Community Work Program (CWP), as specified in the *Compliance Requirements* (Chapter 110-12-2-.03(2)(c)), which states that local governments that have a CIE must “update their entire Short Term Work Program (Community Work Program) annually.” The required annual CWP update addendum is presented as Table 6.

For example, Actual FY23 expenditures on construction materials for path paving have been used to create an average per-linear-foot cost of constructing a new path (\$71.58/lf in FY23), which is then multiplied by the length on the project.

INTEROFFICE MEMORANDUM

MEMO TO: Mayor and City Council

VIA: Justin Strickland, Interim City Manager

FROM: Jill Prouty, Library Director 6/13/2024
Kelly Bush, Assistant Finance Director 6/14/2024
Yasmin Julio, Interim Assistant City Manager 6/14/2024
Justin Strickland, Interim City Manager 6/14/2024

DATE: June 20, 2024

SUBJECT: 06-24-07 Library HVAC replacement and MRR Grant for 50% Match

Recommendation:

Approve the application for the Major Repair and Renovation (MRR) grant through Georgia Public Library Service (GPLS) in the amount of \$474,306.80.

Discussion:

The age of the library's HVAC system is 20 years. The #4 unit is at the end of its useful life cycle; #1-3 are close behind. System-wide replacement is needed. If the application is approved by GPLS and funding is approved by the state legislature during the next session, then the project can begin on July 1, 2025.

Budget Impact:

Funds are requested in the FY2026 CIP Fund-Building Maintenance. Staff anticipates revenue from the MRR grant at a 50% match.
